Comments:

I have disclosed all known health history. The therapist is not liable for treatment outcomes related to missing health history information. Sign here:

Vicars School Student Clinic provides affordable massage therapy treatments to members of the community while offering students hands-on experience in a realistic environment.

The massages provided at Vicars Student Clinic contribute to student learning. During the session, the therapists may focus on a particular aspect of their current training. Therapists and supervisors will ensure that clients receive the best possible care by prioritizing the clients' needs, acting in the client's best interest, and upholding the highest standards of professionalism.

The following have been developed to ensure the comfort and safety of clients, student therapists, and staff:

1. **Please be on time for your appointment.** Our schedule allows for a one-hour massage, with some additional time for an assessment and homecare. If you are late for your appointment, we will not be able to complete a full one-hour massage.
2. **Let us know if you can't make it.** If you must cancel your appointment, please advise us as soon as possible, ideally within 24-48 hours of your appointment.
3. **We cannot guarantee requests for specific therapists.** It may be necessary to switch students to another client without prior notice, as our students benefit from working with a variety of clients.
4. **Do not attend your appointment under the influence of drugs or alcohol.** If it is suspected that you are under the influence, you will be asked to leave.
5. **Respect our scent-free environment.** Strong odours, such as perfume, cologne, cigarettes, or marijuana, can easily spread between treatment spaces and may negatively affect individuals with certain health conditions.
6. **Respect the privacy and comfort of other clients by keeping conversation to a minimum.** Sound carries very easily between treatment spaces. Please keep conversations with your therapist professional and at a low volume and limit unnecessary discussion once your massage has begun.
7. **Turn off your cell phone.** A ringing or vibrating phone is disruptive in a shared space.
8. **Allow the supervisor to help.** The supervisor is required to enter the treatment area during both the assessment and massage to discuss the treatment with your student therapist, offer support, and evaluate the student. This is an essential part of a student's clinical experience. We cannot guarantee a supervisor of a preferred gender.
9. **Clients, students, and staff have the right to a safe, inclusive, and respectful environment. Inappropriate language or behaviour will not be tolerated;** this includes sexual comments and innuendo, inappropriate touch, sexist, racist, or other offensive language.
10. **Feedback is required.** Clients are required to complete a written evaluation form following their appointment. Students benefit from your honest, constructive feedback, and comments on the client feedback forms do not affect a student's grade.
11. **Update health history, as necessary.** We are required to document the current health history of our clients. Please inform your therapist anytime you have changes to your health history. You will be asked to formally update your health history annually.
12. **Participate and communicate openly with your therapist.** Students are required to ask many questions and practice a variety of skills during each appointment, including assessment and self-care. If you need help communicating, a caregiver is welcome to attend.
 - a. **Minors:**
 - i. Must participate for the duration of the booked appointment time, including assessment, treatment, and self-care recommendations.

Waiver - MINOR

- ii. Must be able to understand and provide verbal consent for assessment and treatment. If the minor cannot understand consent or provide consent and feedback during treatment, then a parent or guardian must provide consent and be present in the treatment room for the duration of the appointment.
- iii. Assessment or treatment cannot be provided to a minor who declines consent, regardless of the parent or guardian's direction.

Clients who do not uphold the Client Code of Conduct may be asked to leave or lose future booking privileges.

By signing this waiver, I (parent/guardian)_____ acknowledge that I have read and understand the Client Code of Conduct and the Client Waiver. I understand that the student massage therapist must be aware of the minor's health history and I have completed the health history form and disclosed all medical conditions affecting the minor. I understand that this information will be seen by each student therapist and by Vicars faculty and staff. I understand that I may be present in the room with the minor during the treatment. I understand that I must be present in the room if the minor cannot understand and provide verbal consent. I understand that this information will be seen by each student therapist and by Vicars faculty and staff. I understand that the practitioner is a student, and that their practice is limited to their current scope of learning. I understand that the student therapist does not diagnose illness, disease, or any other physical or mental disorder and that services offered today, and in the future, are not a substitute for medical care. Any information provided by the student therapist is for educational purposes only. I release Vicars School of Massage Therapy Ltd., its students and staff from any liability, past, present and future, relating to treatment received at this clinic and from problems arising from the treatment or as a result of information not given, or incorrectly given in this health history.
