18	On Campus Classes	Mar 30, 31, Apr 1, 2	5-6 shifts
Pre-19	Live Online Lecture	Thursday, April 6	-
19	On Campus Classes	May 4, 5, 6, 7	5-6 shifts
FINAL EXAMS	On Campus	June 1-4, 2028*	-

Program Structure & Expectations

Program Delivery

This is a blended-learning program combining on-campus instruction, online learning, and supervised clinical experience throughout the academic year.

On-Campus Learning

On-campus class days include lectures, hands-on practical instruction, relaxation clinic, special conditions clinic and examinations. Clinical hours completed through the relaxation and special conditions clinics contribute toward the clinical hour requirements in both years of the program.

Public Clinic & Outreach

- Clinic shifts are scheduled in 4-hour blocks, beginning in Module 5, and take place outside of regular classroom hours.

- The Public Clinic Shift Expectation (5–6 shifts per module) is provided for planning purposes and represents the average number of shifts typically required to meet clinic-hour requirements for each year of study.
- Completion of all clinic and outreach requirements is mandatory to progress into Year 2 and to graduate from the program.

Online Learning Expectations

In addition to on-campus classes, students are expected to:

- Participate in scheduled online lectures or review recorded sessions.
- Complete all assigned coursework, including assignments and quizzes.
- Stay current with all module requirements and deadlines.

Notes

- **Final exam schedules and details will be confirmed closer to the end of the academic year.*
- ***All schedules are subject to change and will be posted in Moodle.***
